CENTRAL AREA MAP

Central area all street track except the short length from Hlavna Stanica to the main road. This length is on reservation, together with all tracks west of the tunnel, and north and east of the position marked at the inner ends of Racianska and Vajnorska. Reservations mainly central but some side.

'KARLOVA VES' (Terminus is actually at Kutiky - when the line was extended from Karlova Ves in 1975, the trams to here continued to show 'Karlova Ves', and still do.)
